Eugenia

We are essentially finished with the final changes to the Crab-Clam Data Report responsive to EPA's backcheck, however, in my final review, I found a small number of items to fix. The person handling this effort at Arcadis is on Jury Duty today so I am not able to get the changes made without bringing new people on board (this would likely take longer than waiting for her to return to the office). I've communicated with her via text-message and she's hopeful to be able to address the remaining items by the end of this week, and possibly tomorrow, depending on her jury obligations. I'd appreciate EPA's understanding of this short delay.

Thanks
Cliff

Subject: SQT and Porewater Field and Data Reports comments, back-check of Tierra Responses to Comments on Crab-Clam-Fish (CCF) Field Report and Crab-Clam (CC)

Cliff,

Find attached:

- 2 files with our back-check of Tierra's responses to comments on the Crab-Clam-Fish (CCF) Field Report and Crab-Clam (CC) Data Report. For the most part, Tierra's responses are acceptable.
- EPA's and NJDEP's comments on the Tierra SQT and Porewater Field and Data Reports

I think that I still owe you:

- Comments on TRV memo
- Comments on Draft CSO/SWO Recon Survey Work Plan
- SQT Approach and Reference Site Memo
- Comments on Feasibility Study (FS) Work Plan

Let me know if there's anything else that I'm missing. Thanks,

Eugenia
